## **DETAILED ACTION**

### ***Information Disclosure Statement***

**1. The information disclosure statement filed on the 22<sup>nd</sup> of June 2007 fails to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because no copies of the Foreign Patent Documents or the Non Patent Literature Documents have been provided.** It has been placed in the application file, but the information referred to therein has not been considered as to the merits. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

### ***Allowable Subject Matter***

**2. Claims 1-6 are allowed.**

#### **With regards to claim 1:**

- The allowable subject matter is the combination of three plates interconnected to one another via an intermediary plate, which is one of the said three, such that they can move relative to one another and the first and second connection members, which connect the intermediary plate with the other two plates, must be orthogonal to one another. This has not been found to have been taught or disclosed in the prior art found at this time. The best references found: Kan et al. (US 5,927,414), Simon et al. (US 5,468,055), Parison et al. (US 6,364,078), and

Mizutani et al. (PG Pub. 2006/0144626) disclose a teach the dampening of vibrations within the wheel and with respect to the motor mounted in the wheel, however, the above mentioned combination cannot be reasonably taught by combining the above pieces of art. Therefore claim 1 and those that depend there from are found to be allowable.

***Conclusion***

**3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure:**

- Mizutani et al. (PG Pub. 2007/0068715), Nagaya (US 7,287,611), Hanson (US 4,991,698), and Motte (US 2,537,479)
  - Disclose structure similar to that disclosed and claimed by applicant
